This is in response to the Office Action mailed on September 22, 2005, in which pending claims 1-27 were acted on by the Examiner. In the Office Action, claims 1-16 and 20-27 were rejected under 35 U.S.C. 102(b) as being anticipated by Gehring et al. (U.S. Patent Application Publication No. 2002/0163722), and claims 17-19 were rejected under 35 U.S.C. 103(a) as being unpatentable over Gehring et al. in view of Yamashita (EP Patent No. 0041390).

Claim Rejections – 35 U.S.C. 102

A. Claims 1-13

Independent claim 1 recites a dual display system having first and second opposite sides. The system includes a graphic article providing a first display on the first side of the dual display system in a first lighting condition, and a projection system providing a projection from the second side of the dual display system to provide a second display on the first side of the dual display system in a second lighting condition.
